SUMMARY

I am passionate about my career and excited by opportunities to learn, grow, and develop professionally. I strive to build on my knowledge and experience while continuously improving my skills and confidence. As a caring and helpful individual, I bring a thoughtful approach to my work, strong attention to detail, and a genuine commitment to supporting colleagues and clients. I enjoy collaborating with others and am eager to contribute to meaningful projects that create a positive impact.

EXPERIENCE

CTU Collage (Integrated Learning)

Software Engineer/Developer - 2024

- We were tasked with creating a Property Sales Website.

OBIS Hermanus 2024 (Integrated Learning)

IT Specialist - 2024

- I Shadowed under my supervisor and we did point of sales installations, advertisement design and posting and also UI design for the POS software.

Stellenbosch University IT Department (Integrated Learning)

Software Engineering - 2025

- We were tasked with creating a Voting web application where you can be added to groups to vote and see results in real time as well as the account creation and the database.

Code Loom (Integrated Learning)

Software Engineering - 2026

- We did website testing and debugging documenting all the problems and writing scripts.
